✉ bilaliftikhar431@gmail.com

Full Stack Software Engineer with **4+ years of experience** building scalable, user-centric web applications using **Laravel**, **Next.js**, and modern JavaScript frameworks. Skilled in **REST API development**, **database optimization**, and **responsive UI design**. Adept at collaborating with cross-functional teams, delivering results under tight deadlines, and maintaining clean, efficient code. Seeking to contribute to impactful, fast-paced engineering environments.

SKILLS & CORE COMPETENCIES

- **Frontend:** Next.js (SSR & SSG), Vue.js, React.js, Tailwind CSS, TypeScript Storefronts

- **Backend:** PHP, Laravel, Codeigniter

- **Storage Services:** Supabase Buckets

- **Databases:** MySQL, PostgresSQL, MongoDB, sequelize, mongoose

- **E-Commerce**: Shopify(Liquid Themes), Headless

- **APIs:** REST, 3rd-party API integration

- **DevOps & Tools:** Git, GitHub, CI/CD, Vercel, Netlify

PROFESSIONAL EXPERIENCE

Full Stack Developer Sept 2025 – Present
📍 **Remote – Vocuit (Contracted to AV Leads – avleads.com)**

- Building and maintaining scalable web platforms using **Next.js (frontend)** and **Laravel (backend)**.

- Delivering solutions for AV Leads, a platform that connects elite engineers and technicians with global live event organizers.

- Implementing secure, performant REST APIs and database structures (MySQL/PostgreSQL).

- Collaborating closely with designers and stakeholders to ship clean, responsive interfaces.

Senior Software Engineer June 2021 – August 2025
Algolix Technologies

- Developed scalable back-end systems using **Laravel (PHP)** and dynamic front-end interfaces with **Vue**, **Next.js**, and **React.**

- Integrated **RESTful APIs** and services such as payment gateways and OAuth providers.

- Optimized **MySQL queries** to enhance application performance and resource efficiency.

- Collaborated with product and **UX/UI** teams to translate requirements into

polished, user-centric interfaces.

PROJECTS

AV Leads – avleads.com

Platform connecting live event organizers with top-tier engineers and technicians.

PoolStore – poolstore.co.uk

PoolStore is the UK's top online retailer for pool and spa supplies

IGIVU – igivu.com

IGIVU delivers end-to-end XR solutions—VR, AR, and MR—to more than 3,000 organizations, including Stanford.

Logistivo – logistivo.com

Built a responsive web interface for Logistivo's logistics platform using Figma designs.

The Little Mate – thelittlemate.pk

Shop baby clothes, toys, and essentials—crafted for comfort and quality.

EDUCATION

Bachelor's in Information Technology 2017 – 2021
University of Agriculture Faisalabad

- Gained knowledge of **system analysis**, **software architecture**, and designing **scalable and efficient applications**.

- Designed and optimized **relational** and **non-relational** databases using **SQL**, **Firebase**, and **MongoDB**, focusing on data modeling and query optimization.

KEY STRENGTHS

- **Full-Stack Development:** Experienced in both frontend and backend development using **Vue.js**, **Next.js**, **Tailwind CSS**, **Laravel (PHP)**, and **RESTful APIs**. Capable of handling end-to-end application development with a focus on performance and scalability.

- **E-commerce & ERP Expertise:** Developed **custom Shopify stores** and integrated third-party APIs for payments and analytics.

- **Project Delivery & Code Quality:** Demonstrated ability to manage timelines, collaborate cross-functionally, and deliver projects within budget.
